

The State of California requires the stamp manufacturer of California Notary stamps to be registered with the state and are given a manufacturing number.

In order to purchase a notary stamp,  
the State requires that you send to the manufacturer the original form.

**"AUTHORIZATION TO MANUFACTURE"**

which the manufacturer must complete and return to the Secretary of State.

So, before we can ship your stamp, we must have the original certificate of authorization.

You can mail the original copy and then order your stamp through our website.

All you notary stamp information is on that form.
